

STOP THE TRAFFIC

5 ACTIONS YOU CAN TAKE

1 TALK ABOUT IT

Be a catalyst for the issue! Research Human Trafficking online, talk to your friends and others about it and post stuff around your school, workplace and town/city on the issue. Awareness is the first step! See www.stophetraffik.org, www.ungift.org & www.salvationist.ca/trafficking

2 COLLABORATE

Share your time and finances with organizations that are working to stop Human Trafficking. It costs something to change lives – time and \$\$\$. You have both. Use them wisely to change the world.

3 DITCH THE PORN

Porn messes with how you view others and is based solely on self-pleasure and fantasy (false reality). Porn, stripping, prostitution and trick pads/brothels are all connected. Not everyone involved has been trafficked but many are and that's enough reason to avoid that scene. See www.sharedhope.org/what/endeddemand.asp & www.xxxchurch.com

4 GET POLITICAL

Create or sign petitions, write your MP with your concerns regarding existing laws that need to be changed or new laws you want to see enacted to protect vulnerable people (primarily women & children). See www.canada.gc.ca

5 BUY FAIRTRADE

Fair Trade certified products (coffee, chocolate...) guarantee that people weren't used and abused or trafficked to make or distribute the product. Buy with a clean conscience. See www.transfair.ca & www.fairtrade.net
